

# RHINOSTICS

## Innovating Sample Collection

Rhinostics brings novel, award-winning, purpose-built, patient-centric devices for swab, blood, and DNA collection to home and medical facilities

## PRODUCTS

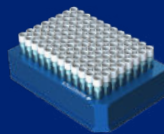

Swab Collections  
**RHINOstic®**

Blood Collections  
**VERIstic®**

DNA/Cellular Collections  
**HIPPOstic™**

## ABOUT US

COVID-19 cast light on the urgent need to improve sample collection and laboratory workflows. Rhinostics was born to meet the moment. Our united mission is to innovate sample collection, one purpose-built collection device at a time.

## BENEFITS

- EASY, COMFORTABLE COLLECTION  
Non-irritating, ergonomic collection
- DRY SHIPMENT  
No spills, leaks, lost samples;  
reduced shipping and re-test costs
- RELIABLE RESULTS  
Rapid elution and automation benefits
- SMALL SIZE AND LONGER SHELF LIFE  
Discreet and cost-effective packaging,  
kiosk/ shelf-space friendly
- LAB EFFICIENCIES  
Automation compatibility reduces costs

## INDICATIONS

### SEXUALLY TRANSMITTED INFECTIONS

*Chlamydia, Gonorrhea, HIV, HSV,  
HPV, Trichomonas, Mycoplasma*

### RESPIRATORY PATHOGENS

*COVID-19  
Multi-analyte Respiratory*

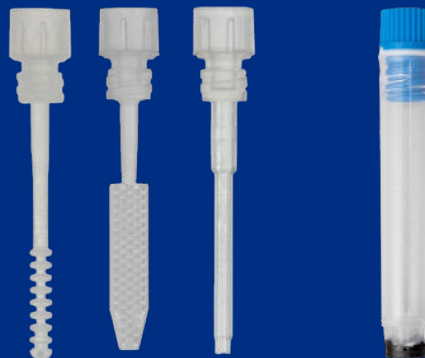

### BLOOD APPLICATIONS

*HIV, HCV, HBV, HSV, Pathogens  
A1C, Biomarkers  
Hormone, Antibodies*

### DNA TESTING

*Pharmacogenomics  
Hereditary Cancer  
Wellness Markers*

## EXPANDING PRODUCTS AND INDICATIONS

RHINOstic HIPPOstic VERIstic Collection Tube

### RHINOstic

Anterior nares, vaginal, penile, anal,  
mouth/throat, wound, pox and other

### HIPPOstic

Buccal, tongue, derm, wound, sore, and pox  
collections

### VERIstic

Capillary blood and biofluid collections

### Collection Tube

Urine and other sample transport  
Pairs with RHINOstic, HIPPOstic, VERIstic

## FEATURES

Dry transport and novel materials enable sample concentration and LOD improvements

Easy to apply barcode labels for patient activation, accessioning, and redundant manual scanning

Barcode labels can add matching 2D barcode for SBS 96-well rack accessioning

Automated decapper-compatible

Made in the USA with redundant manufacturing for reliable supply chains. Easy to manufacture injection molded polypropylene swab integrated with cap

Stacked ring head design, validated in laboratory and clinical studies, enables comfortable sample collection with high collection capacity

## ADVANTAGES

### PATIENT SELF-COLLECTION

### LOGISTIC BENEFITS (DRY, SMALL SIZE)

### VERSATILITY (MULTISITE, INDICATIONS, PACKAGING)

### BETTER ASSAY RESULTS (ELUTION/AUTOMATION)

### LAB WORKFLOW EFFICIENCIES/IMPROVEMENTS

### PATIENT EXPERIENCE (HIGH-TECH, EASY TO USE)
